## COMPANY PROFILE

**ULTRA PETRONNE**  
INTERIOR SUPPLY CORPORATION

# our **HISTORY**

Founded in September 1994, our mother company Ultra Petronne Interior Supply Corporation quickly established itself as one of the leaders in fabrication of light metal frames. The company's founder recognized the potential market of light metal frames in the Philippines, using quality materials they create frames that were not only durable but also affordable.

With a team of skilled engineers and craftsmen the company began designing and manufacturing a wide range of light metal products for ceiling framing systems and wall framing systems. As the company continued to innovate it expanded its product line to cater other industries as well. With introduction of metal frames in the market we expand our products from aluminum & PVC windows, metal roofing and locally fabricated steel doors.

STAHL Division focuses on manufacturing metal doors and frames. Our department consistently invested in developing our products and ensuring that we give the proper requirement for our client needs. This commitment to excellence has allowed us to establish long-standing relationships with clients and partners both locally and abroad.

Today our department continues to thrive as a pioneer in fabricating metal doors and frames. With focus on quality, innovation and customer satisfaction we aim to push boundaries and set new standards within the industry.

# our **VALUES** and **PRINCIPLES**

**Quality** - We are committed to providing high-quality products and services to our customers. We believe in delivering materials that meet the highest industry standards and ensuring our customers receive reliable and durable products.

- **Customer-Centric Approach:** Our dedicated customer support team is here to assist you at every stage – from concept to delivery. We take pride in fostering lasting partnerships with our clients, offering seamless communication and support throughout the entire process.

Manufacturer of

## ROLL-UP **DOORS**

**R**oll-up doors also known as shutter doors, provide security and weather protection for exterior or interior walls using guides and slats that coil above the opening. Commonly used in industrial, institutional, commercial and other buildings. Can be operated manually or through a motor.

## FIX LOUVER **WINDOWS**

**A** fixed louver window is a type of window design that incorporates fixed, non-adjustable louvers or slats. Louvers are angled slats that allow for the passage of air and light while offering some degree of privacy and protection from the elements.

These windows are often used for architectural purposes, adding a decorative element to the building's exterior while serving practical functions such as ventilation and light diffusion.

# other **PRODUCTS**
